

HOW TO ACCESS THE GENEALOGICAL DATABASE OF THE MICHAUD FAMILIES ASSOCIATION Inc. at the SGHR?

All members of the Michaud Family Association have free access to a section reserved for them as a member in good standing.

It contains all the descendants of Pierre Michaud and Marie Ancelin, presenting them in the form of PDF documents (one per generation).

Online services exclusive to members

As a member in good standing, here is the content and other benefits available to you.

A number is assigned to each individual with ancestry or descent. This makes it easy to find direct relatives.

Some access restrictions exist for these 14 PDF files: the information we know about living people under 100 years old is hidden (données protégées)*, and the following functions are not available: print, copy file, select and copy content, extract pages to make another document.

Being distributed in a much more restricted and controlled way, the [USB key for sale](#) by the association **does not contain any of these restrictions**. In addition, PDF files are "encrypted" so that search engines cannot see the content.

As an option, to allow the members of the Association to consult the genealogical database by browsing among the names rather than consulting the PDFs available on the WEB site to which they have access, the AFMI has agreed with the SGHR to publish its bank on their site.

However, the Internet user must become a member of the Rimouski Genealogy and History Society (SGHR) at a cost of \$40 per year. Here is the link to subscribe: <http://sghr.ca/fr/>

As soon as you become a member of the SGHR, you will have access to our database as well as to a large number of others published by other amateur genealogists. In fact, over 20 databases with over 1,600,000 names!
